**NTT DATA Establishes NTT DATA Asia Pacific Pte. Ltd. in Singapore**

NTT DATA Corporation (President and CEO: Toru Yamashita; Head office: Koto-ku, Tokyo; hereinafter referred to as “NTT DATA”) is pleased to announce the establishment of its Asia Pacific Headquarters, NTT DATA Asia Pacific Pte. Ltd. (hereinafter referred to as “NDAP”), in Singapore.

NTT DATA announced its dynamic business growth plan to increase its global business sales from US\$650 million to US\$3 billion by FY2012. The APAC region is one of the key areas to achieving this challenging plan, and Singapore is an important strategic hub for NTT DATA to manage the region.

Mr Manohar Khiatani, Deputy Managing Director, Singapore Economic Development Board said, “NTT DATA Asia Pacific's establishment in Singapore is a welcomed addition to the growing presence of world class companies choosing Singapore as a home to manage and drive their businesses. We are very pleased as this decision also underlines our continued partnership with NTT Group and validates Singapore's position as a global IT hub.”

One of the main strategies for NTT DATA is to expand its footprint to strengthen its IT support capabilities in the Asia Pacific region. Since its establishment, NDAP has already entered into a capital alliance with Australia-based SAP Channel Gold Partner, Extend Technologies Group Holdings Pty Ltd. to respond to the needs of its own multinational customers. Through this alliance, NDAP immediately strengthens its support for its own SAP customers in the Asia Pacific region.

Ryoji (Rio) Fukaya, President and CEO of NDAP, quotes: “One of the key elements of our global expansion strategy is SAP. The newly formed alliance with Extend, along with our existing partnership with itelligence AG, allows us to enhance our global SAP servicing and support capabilities for our customers.” NDAP’s strategic partnership with SAP stems from the strong support received from SAP worldwide and the confidence that SAP will maintain and continuously improve its strong position in the business software market.

Stephen Watts, Chief Operating Officer, SAP Asia Pacific Japan said: “We strongly support NDAP’s further investment and commitment to the SAP Business in Asia Pacific Japan. NDAP is a highly valued SAP partner delivering world class SAP solutions and services. We look forward to deepening our relationship with NDAP and continuing to partner them to meet the business needs of our diverse customer community in the region.”
